Assistant Transfer System Supervisor

The Assistant Transfer System Supervisor is responsible for assisting the Transfer System Supervisor in coordinating the daily operations of the transfer stations, convenience centers, and the hauling of solid waste and recyclables to regional disposal facilities and processing sites. Supervises attendants for the transfer stations and convenience centers and drivers along with the Transfer System Supervisor. Assists with special events and household chemical collections as needed. Reports to and receives supervision from the Transfer System Supervisor through regular discussions and consultations. This position is a “safety sensitive” position subject to VPPSA drug testing policies.

Essential Job Functions

- Assists in training, motivating, supervising, disciplining, and evaluating transfer system and convenience center employees as well as drivers in accordance with the adopted Personnel Policies and Procedures
- Coordinates solid waste disposal activities by citizens, communities, and other users of the sites
- Coordinates hauling of solid waste from transfer stations and convenience centers to regional disposal facilities
- Prepares work schedules and compiles time sheets for transfer system and convenience center employees
- Coordinates the general upkeep and appearance of buildings and grounds for all transfer stations and convenience centers
- Performs annual site assessments of transfer stations and convenience centers to address safety concerns and evaluate equipment needs
- Enforces standard operating and safety policies and procedures
- Coordinates recycling activities at the transfer stations and convenience centers
- Prepares, reviews, and compiles necessary records to document site operations, maintenance, and hauling activities
- Assists with coordinating and supervising special waste and recycling collection events
- Operates roll-off vehicles
- Serves as Transfer System Supervisor in the absence of the Supervisor

Additional Job Functions

June 2023
• Assists with maintenance activities on vehicles and equipment
